3. Instructions for Observer:

- for this lesson there will be a lot going on, so I will be working on keeping things flowing
- Students will have a different steps so just making sure they don't get confused

4 Data Collection

Great intro! You tapped into prior knowledge. The story broke it up nicely. Your list on the board allowed students to see their ideas affirmed. Good sentence starters to support. The students worked hard while you helped them create. Having them work on their word work/read was a good idea.

5. Other Comments

You encouraged ontask responses at the carpet. This allowed your lesson to flow. Some chatter → you called them to listen - don't forget to wait for their focus.

You had them clean up + come to the carpet to wrap up.
